Name of the Scheme:

IIFL Liquid Fund

Type of the Scheme:

An open-ended liquid scheme

Investment Objective:

To provide liquidity with reasonable returns in commensuration with low risk through a portfolio of money market and debt securities with residual maturity of up to 91 days.

However, there can be no assurance that the investment objective of the Scheme will be achieved.

Asset Allocation Pattern of the Scheme:

The investment policies of the Scheme shall be as per SEBI (Mutual Funds) Regulations, 1996, and within the following guidelines. Under normal market circumstances, the investment range would be as follows:

Type of Instruments	Indicative Allocation (% of Net assets)		Risk Profile
	Minimum	Maximum	
Money market and debt instruments with residual maturity up to 91 days (including floating rate debt instruments & securitized debt)*	0%	100%	Low to Medium

In case of deviation the portfolio would be rebalanced within 1 month from the date of deviation.

* Investments in securitized debt including Pass Through Certificates (PTCs) not to exceed 25% of the net assets of the Scheme as at the time of purchase.

The total exposure of the Scheme in a particular sector, based on AMFI classification (excluding investments in Bank CDs, TREPs, Government Securities, Treasury Bills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the Scheme. An additional exposure to financial services sector (over and above the existing 20% limit) not exceeding 10% of the net assets of the scheme may be made by way of investments in AA or higher rated securities of Housing Finance Companies (HFC's) registered with National Housing Bank (NHB). However, the total investment in HFC's shall not exceed 20% of the net assets of the scheme. Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio. The Fund shall not take any leveraged position. The cumulative gross exposure in debt, money market and derivatives shall not exceed 100% of the net assets under management of the scheme.

The Scheme will not invest in Foreign Securities and will not participate in repo transactions of Corporate Debt Securities / Credit Default Swaps.

Pursuant to SEBI circular No. SEBI/IMD/CIR No. 13/150975/09 dated January 19, 2009, the Scheme shall make investment in / purchase debt and money market securities with maturity of up to 91 days only.

Investment Strategy:

The investment strategy of the scheme is to invest into various debt and money market securities with an overall portfolio residual maturity of less than 91 days. All investments made by the Scheme will be made in accordance with SEBI (Mutual Fund) Regulations, 1996, as amended from time to time.

The AMC will follow a structured investment process in order to identify the best securities for investment and has developed an internal research framework for consistently examining all securities. The aim of the Investment Manager will be to allocate the assets of the Scheme between various money market and fixed income securities with the objective of achieving optimal returns with high credit quality portfolio. The actual percentage of investment in various fixed income securities will be decided after considering the prevailing market conditions, the macroeconomic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity and other considerations in the economy and market.

Risk Profile of the Scheme: (Please refer SID for complete Risk factors.)

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

1. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal and there is no assurance or guarantee that the objectives of the Scheme will be achieved.
2. As the price/value/interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down. The value of investment in the scheme may be affected, by change in the market, interest rates, change in credit rating, trading volumes, and settlement period and transfer procedures. The NAV is also exposed to Price/Interest Rate Risk and credit risk and may be affected inter-alia by the government policy, volatility and liquidity in the money market.
3. Past performance of the Sponsors/AMC/Mutual Fund does not guarantee the future performance of the Scheme.

Risk associated with Investing in Debt and money market instruments:

Interest Rate risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise.

Credit risk: This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest.

Liquidity risk: The liquidity of a bond may change depending on market conditions leading to changes in the liquidity premium linked to the price of the bond. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.

Risk associated with Investing in Derivatives:

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risk Mitigation Measures:

The investment team of the AMC takes an active view on the key drivers affecting interest rate scenario. Investment views / decisions will be based on an analysis of macroeconomic and other relevant factors to estimate the direction of interest rates and level of liquidity, in an attempt to optimize the risk adjusted returns on the portfolio. Portfolios are rebalanced on a dynamic basis as per the objective of the scheme to optimize returns whilst managing risks at all points in time. The credit quality of the portfolio is maintained and monitored using in-house research capabilities as well as inputs from external sources such as independent credit rating agencies.

Whilst all risks such as interest rate risk, liquidity risk, default risk, reinvestment risk, etc. cannot be eliminated, they may be minimized through diversification, research and effective use of hedging techniques. The AMC would incorporate adequate safeguards to minimize abovementioned risks in the portfolio construction and management process.

To achieve this, an internal Investment Committee meets regularly to provide overall guidance for the investment management process.

Dematerialization of Units:

Unit holders are given an option to hold the units in demat form, in addition to account statement (physical form).

Liquidity:

The Scheme will offer Units for Purchase and Redemption at NAV related prices on every Business Day on an ongoing basis, commencing not later than 5 working days from the allotment of units of the scheme.

Plans and Options:

I PLAN:

Regular Plan and Direct Plan: Investors subscribing under Direct Plan of a Scheme will have to indicate "Direct Plan" against the scheme name in the application form. e.g. "IIFL Liquid Fund - Direct Plan". Investor should also indicate "Direct" in the ARN column of the application form. However, in case Distributor code is mentioned in the application form, but direct plan is indicated against the scheme name, the distributor code will be ignored, and the application will be processed under Direct Plan. Further where application is received without mentioning 'Direct Plan' against the scheme name but without Distributor Code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.
